

# PRINT SPECIFICATIONS

## ACCEPTED FILES FORMAT

We accept any files created from the following softwares:

Adobe Illustrator	Adobe InDesign	Adobe Photoshop
<p>Please outline all fonts (beware of locked layers and hidden objects that can contain text).</p> <p>Do not forget to incorporate or attach linked images.</p>	<p>Please provide a complete package (Ctrl+Alt+Shift+P) containing your Indd files, Idml, imported images and fonts.</p>	<p>Please flatten all layers of the document.</p> <p>PSD files or Tiff format.</p>
<p>- Please provide 20mm (real size) bleed on all 4 sides of your files. - Scale the documents at 1/10 if it is not possible to put them at full size.</p>		

## PDF FILES

Please save your PDF files by selecting **PDF/X 3: 2002** standard, including bleed and without any crop marks.

PDF files created from applications other than Illustrator or InDesign can cause printing problems. In no case we can be held responsible for any printing defect if the PDF has been generated by another source.

## IMAGE RESOLUTION

To ensure high quality printing, all images must have a minimum resolution of 80-120 dpi at full size.

## COLOR

Our printing processes implies that all documents will be converted to CMYK. If any colour needs a specific matching, please specify these as Pantone Solid Coated (PMS) or provide us with a color proof.
